Need to integrate your data with essential systems?

quickbooks · thyssenkrupp · Steelcase · sage · TARGET · meijer · Walmart · HDSUPPLY · Sysco · Schneider Electric

Welcome to Corsica's EDI Integration Solutions

Corsica delivers data integration solutions that allow companies to electronically exchange documents in support of processes like procurement, commerce, billing, shipping, claims processing, and more.

We collaborate with you to design the ideal EDI solution for your organization. From implementation to ongoing support, we've got you covered.

Why choose Corsica for Data Integration and EDI services?

Delivered as a Turnkey Managed Service

Includes mapped configuration (to any protocol), integration, and ongoing solution management (people, technology and process).

With our managed service, we'll take care of adding new fields and trading partners so you don't have to.

Access to experts from cybersecurity and IT

How does EDI affect your overall cybersecurity posture? What will you do to mitigate risks?

As a full-service provider of IT and cybersecurity services, we offer an integrated approach to EDI solutions—with cybersecurity baked in from the start.

Improve visibility with the Corsica Integration Cloud

Our proprietary platform connects all your data streams for one source of truth.

- True "any-to-any" capabilities
- Cloud-native integration
- Built for EDI, VAN, ERP integration and more!
- Real-time or batch updates

Easily integrate to suppliers and buyers

Supports all popular message formats, routing protocols, and applications.

- Message Formats: EDI, EDIFACT, cXML, IDOC, etc.
- Routing Protocols: HTTPs, AS2, VAN, etc.
- Platform Agnostic: Connects with most ERPs, eProcurement and eCommerce End Points
