

Corsica Microsoft Defender XDR Managed Security

Corsica Advantage

Corsica Technologies is a leading MSP with expertise in IT, cybersecurity, cloud systems, data integration, EDI, and AI. Here's what sets us apart when it comes to Azure.

- Azure Focused
- 16-year Microsoft Cloud MVP on staff
- L5 Sentinel Black Belt on staff
- Azure certified architects
- 24 X 7 support services

What makes us different?

- Targeted XDR coverage, direct management
- Retain full control in your tenant
- Rapid deployment in weeks, not months
- Seamless transition path to expand into full Sentinel SIEM capabilities
- Efficient security operations with potential for integration and cost optimization
- Equip your team with focused expertise and operational support

Offer includes:

- ✓ Deployment and integration of Microsoft Defender XDR suite for focused security monitoring
- ✓ Configuration and testing of relevant Microsoft Defender XDR connectors for effective incident management
- ✓ Tailored mapping of security entities to optimize Defender XDR investigations
- ✓ Evaluation and calibration of Microsoft Defender XDR data collection protocols, including custom detection rules
- ✓ Engineering assessment of Defender XDR operational dashboards and trigger mechanisms
- ✓ Round-the-clock monitoring by our Security Operations Center with strategic incident escalation procedures
